LEDGE WORK ON NH 11 IN ALTON TO CONTINUE DUE TO WEATHER
TRAFFIC WILL BE DETOURED DAILY ONTO NH ROUTE 11D

The New Hampshire Department of Transportation announces ledge work along a two-mile stretch of NH Route 11 in Alton requiring a rerouting of traffic onto NH Route 11D will continue through the week of September 6 due to weather conditions.

The Route 11 road closures will occur from 6:00 am until 4:00 pm daily. Uniformed officers and flaggers will alert motorists to the road closure and detour situations. Motorists should seek alternate routes during this time period if possible.

This project involves the rehabilitation of a 4-mile stretch of NH Route 11 in Alton from just east of the intersection with NH Route 11D to Minge Cove Road. It includes rock scaling, new guardrail and some minor drainage work.

Pike Industries Inc. of Belmont, New Hampshire is the general contractor for the \$2.8 million project, which has a final completion date of spring 2006.
